(54) Title: PLUG-IN UNIT ASSEMBLY COMPRISING INSTRUMENT TRANSFORMERS

(57) Abstract: The invention relates to a plug-in unit assembly comprising instrument transformers, a case assembly (1) comprising a connector assembly (10), and a plug-in unit (2) comprising at least one instrument transformer (3, 4) and configured to be connected to the case assembly (1). The instrument transformers (3, 4) of the plug-in unit (2) are coded in such a manner that the codings of the current transformers (3) and the voltage transformers (4) are different. The connector assembly (10) of the plug-in unit assembly of the invention is capable of identifying the type of the instrument transformers (3, 4) based on their coding when the plug-in unit (2) is being connected to the case assembly (1).
